ABOUT RB COMPLETE DOORSET SOLUTIONS

ONE TEAM. ONE SOLUTION.

RB Complete Doorset Solutions was formed through the successful partnership of RB Architectural Hardware and Complete Doorset Solutions.

Bringing together decades of experience, technical expertise and project delivery knowledge, RB Complete provides a fully integrated Design, Supply & Installation service for complete building solutions throughout the United Kingdom.

The construction industry continues to evolve. Projects are becoming more complex, programmes are becoming more demanding and clients increasingly expect a coordinated approach from their supply chain partners.

RBCDS was established to meet those expectations.

By combining specialist expertise across doorsets, architectural ironmongery, access control, automatic doors, washroom systems, signage and postal management solutions, we provide a single point of responsibility for multiple disciplines throughout the lifecycle of a project.

OUR OBJECTIVE IS SIMPLE:

To remove complexity, improve coordination and deliver complete building solutions through one accountable partner.

Whether supporting a major residential development, a healthcare facility, a student accommodation scheme, a hospitality project or critical infrastructure, our team works closely with developers, contractors, architects and facilities managers to ensure every solution is delivered safely, professionally and on programme.

We believe service remains the most important differentiator in our industry. That is why we always have been and always will be customer service first.

WHY CLIENTS CHOOSE **RB COMPLETE DOORSET SOLUTIONS**

REAL PEOPLE. COMPLETE SOLUTIONS.

Successful projects are built on communication, accountability and trust.

At RBCDS, we understand that clients do not simply require products. They require dependable partners who take ownership, provide solutions and remain accountable throughout the delivery process.

Every project is assigned a dedicated point of contact who remains responsible for communication, coordination and delivery from project inception through to completion.

This ensures that clients benefit from clear communication, consistent technical support and a proactive approach throughout every stage of the project.

WHY CLIENTS WORK WITH RB COMPLETE DOORSET SOLUTIONS

- **Single Point of Contact:** A dedicated project manager ensures clear communication and accountability throughout the project lifecycle.
- **Design, Supply & Installation:** Our fully integrated service reduces complexity, improves coordination and streamlines project delivery.
- **Technical Expertise:** Our experienced team provides specification support, compliance guidance and practical solutions for complex applications.
- **National Coverage:** Operating from Liverpool, London and Bristol, we support projects throughout the United Kingdom.
- **Strategic Manufacturer Partnerships:** Long-standing relationships with leading manufacturers ensure quality products, reliable supply chains and technical support.
- **Customer Service First:** Real people who answer the phone, take ownership and deliver on their commitments.

RB COMPLETE DOORSET SOLUTIONS **BY THE NUMBERS**

- **28** Dedicated Team Members Providing expertise across specification, procurement, project management, logistics and installation.
- **£10 Million** Annual Turnover Demonstrating financial strength and long-term sustainability.
- **15+ Years** Industry Experience Supporting projects across multiple sectors throughout the United Kingdom.
- **1,000+** Projects Supplied From residential developments to healthcare facilities and major infrastructure projects.
- **20,000+** Products Supplied Annually Supporting developers, contractors and facilities managers nationwide.
- **5** Strategic UK Locations – Liverpool, Southport, London, Bristol & Newtown (manufacturing, Wales)
- Nationwide Project Coverage Supporting projects throughout England, Scotland and Wales.
- 1 Single Point of Responsibility One accountable partner throughout the lifecycle of every project.
- **100%** Committed To Customer Service Real people. Real accountability. Real results.

PROJECT DELIVERY **PROCESS**

ONE TEAM. ONE SOLUTION.

Every successful project follows a structured delivery process. At RBCDS, we manage each stage carefully to ensure compliance, quality and accountability throughout.

Stage 1

Specification & Design Working alongside architects, contractors and consultants, we assist with product selection, technical compliance, scheduling and coordination.

Stage 2

Procurement Our procurement teams coordinate supply chains, manufacturer relationships and programme requirements to ensure products are available when required.

Stage 3

Manufacture Working with approved manufacturing partners, products are manufactured to project-specific requirements and quality standards.

Stage 4

Delivery Coordinated logistics ensure products arrive safely, accurately and in accordance with project programmes.

Stage 5

Handover Project documentation, certification and support are provided to ensure successful project completion.

Throughout this process, clients benefit from one dedicated point of contact and complete visibility of project progress.

NATIONAL COVERAGE

DELIVERING THROUGHOUT THE UNITED KINGDOM

- Operating from Liverpool, Southport, London and Bristol, RBCDS supports projects across the UK.
- Our combination of technical expertise, strategic manufacturer relationships and experienced project management teams enables us to deliver consistently across a wide range of sectors.
- We understand that every project presents unique challenges.
- Our role is to simplify those challenges through coordinated solutions and proactive project delivery.
- **Manufactured in Wales** – our 20,000 sq ft production facility in Newtown handles CNC machining, assembly, glazing & finishing in-house, with full quality control.

SECTORS WE SUPPORT

- **Residential:** From apartment entrance doorsets to complete Build-to-Rent developments.
- **Commercial:** Supporting office developments, mixed-use schemes and corporate environments.
- **Education:** Providing doorsets, access control and specialist solutions for schools, colleges and universities.
- **Healthcare:** Supporting hospitals, care homes and healthcare environments where compliance and reliability are critical.
- **Hospitality:** Delivering premium solutions for hotels, aparthotels and leisure developments.
- **Student Accommodation:** Coordinated opening packages designed for modern student living environments.
- **Defence & Public Sector:** Supporting secure, compliant environments throughout government and defence sectors.

Wherever our clients build, RBCDS is positioned to support them.

COMPLETE DOORSET SOLUTIONS

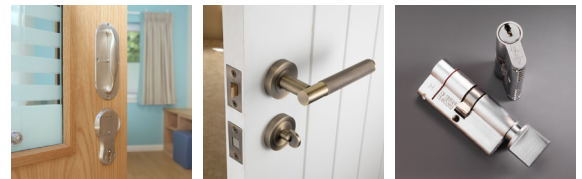

DELIVERING THROUGHOUT THE UNITED KINGDOM

- A doorset is far more than a door.
- It is a fully coordinated system combining performance, compliance, security, durability and aesthetics.
- At RBCDS, doorsets form the foundation of our complete opening package approach.
- We work closely with clients to provide solutions that meet the specific requirements of each project while ensuring compliance with relevant fire, acoustic, accessibility and security standards.

OUR 20,000 SQ FT MANUFACTURING FACILITY

Newtown, Powys · in-house CNC, assembly, glazing, finishing & quality control

Our Range Includes

- | | |
|--|--|
|  Apartment Entrance Doorsets |  Fire Rated Doorsets |
|  Healthcare Doorsets |  Education Doorsets |
|  Commercial Doorsets |  Hospitality Doorsets |
|  Timber |  Screens Glazed |
|  Screens Specialist and Security Doorsets | |

- By coordinating doorsets alongside ironmongery, access control, signage and associated building solutions, we provide a truly integrated service that simplifies project delivery and reduces risk.

The result is a complete opening package delivered through one accountable partner. Wherever our clients build, RBCDS is positioned to support them.

DOOR CONFIGURATION

We offer a wide range of doorset configurations, including single, double, and leaf & a half doors, with glazed or solid side panels, over panels, and fanlights. Every doorset is manufactured to your project's exact requirements and is available with certified fire, security, acoustic, and performance options.

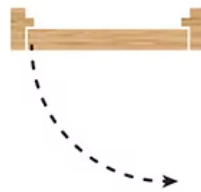

Our experienced technical team is on hand to help you select the right configuration, handing, and certification for your project. We also provide clear handing conventions to ensure accurate specification and installation.

Single action left hand

Single action right hand

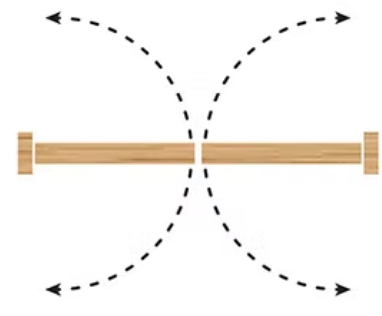

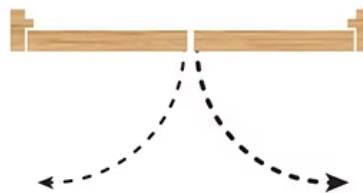

Single leaf

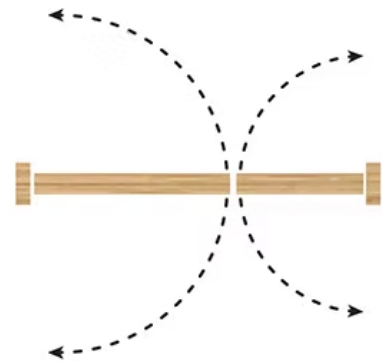

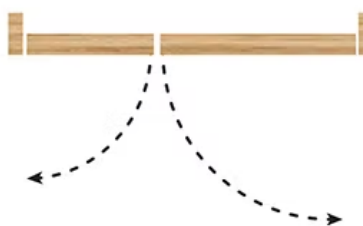

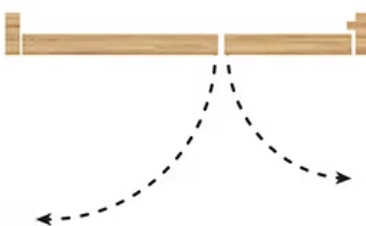

Double action

Double leaf

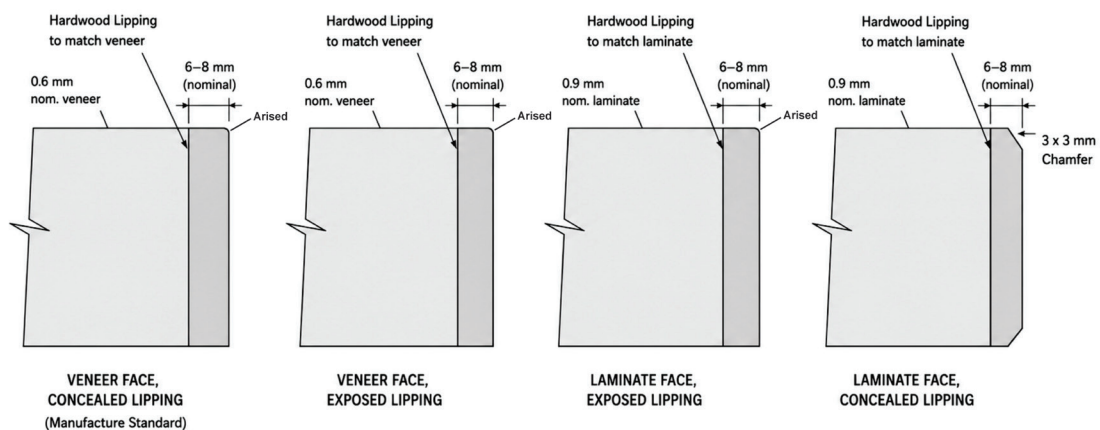

Unequal pair

DOOR STANDARDS

We offer a complete range of solid core doorsets, including standard, fire-rated, security, and acoustic solutions. Our doors are available with FD30, FD60, FD90, and FD120 fire ratings, PAS 24 security certification, and a range of acoustic performance options.

We also provide bespoke doorsets and project-specific testing to meet unique requirements. As standard, all our doors feature durable hardwood lippings for enhanced strength, moisture resistance, and a high-quality finish, with thicker lippings available for security doors.

DOOR FINISHES

Veneer Finish Doors

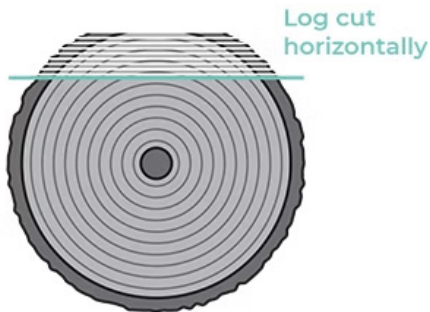

We offer premium **AAA-grade veneered doors** with matching lacquered hardwood lippings, supported by a Chain of Custody.

Popular veneer options include **Oak, Walnut, Ash, Birch, Beech, and Cherry**, available in both **Crown Cut** and **Quarter Cut** finishes to suit your preferred grain appearance.

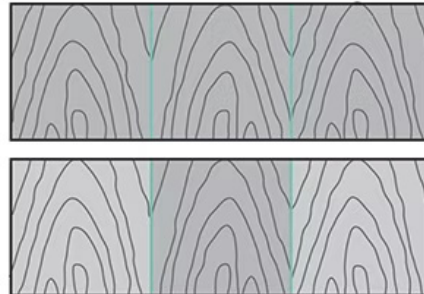

Crown cut veneers are often seen as a more “attractive” option than Quarter cut veneers.

Crown Cut

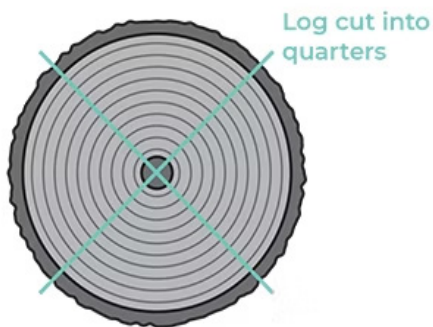

Book Match

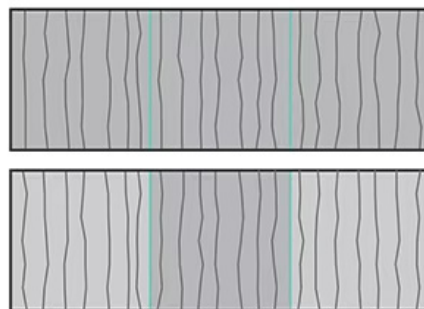

Quarter cut veneers have a closer, straight grained and more uniform appearance.

Quarter Cut

Book Match

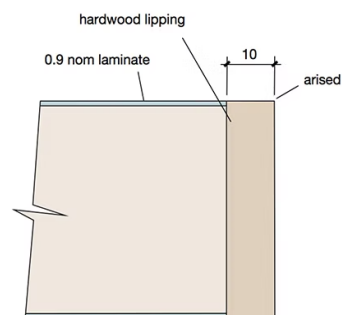

Slip Match

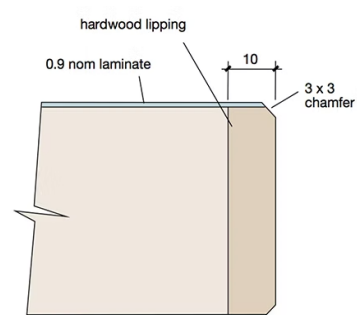

Laminate Finish Doors

We offer **high-pressure laminate (HPL)** doors that are durable, easy to maintain, and ideal for high-traffic environments such as education and student accommodation.

Available in a wide range of colours and textures, our laminate doors come with a choice of **two hardwood lipping options** and are manufactured using laminates from **Egger, Polyrey, and Formica**, with alternative brands available on request.

Laminate Face, Exposed Lipping

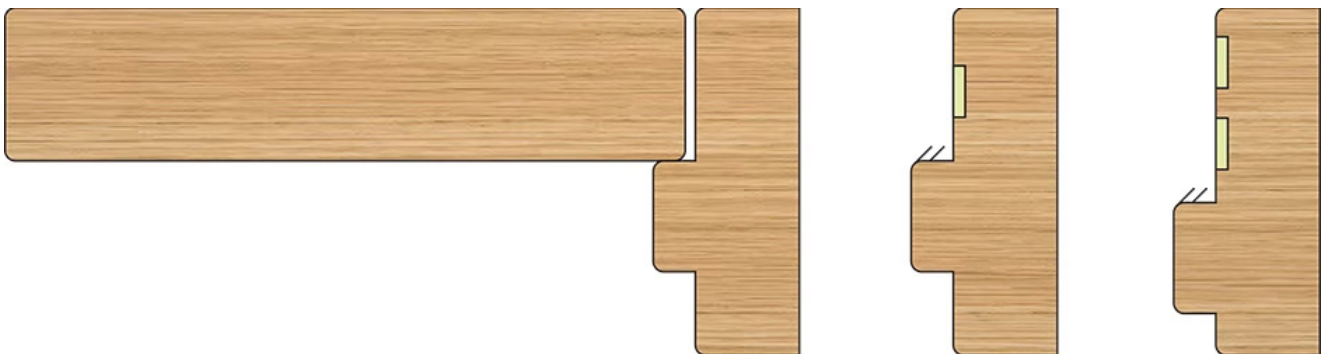

Laminate Face, Concealed Lipping

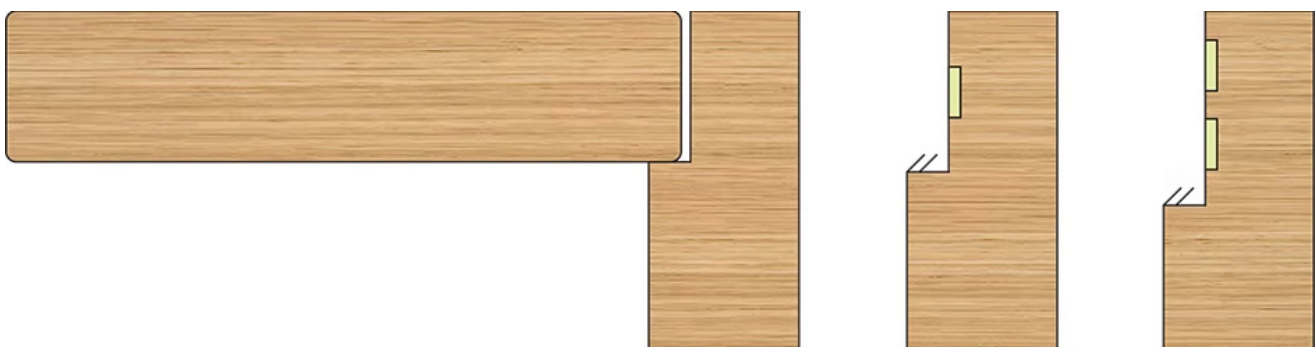

LINERS & ARCHITRAVE

We offer **flat back** and **rebated liner** options suitable for **NFR, FD30, FD60, FD90** and **FD120** applications, with intumescent strips and smoke seals where required.

Liners are available in **MDF, softwood, or hardwood** with a range of veneer, lacquered, primed, or painted finishes. Matching architraves are supplied as standard to accommodate uneven wall finishes.

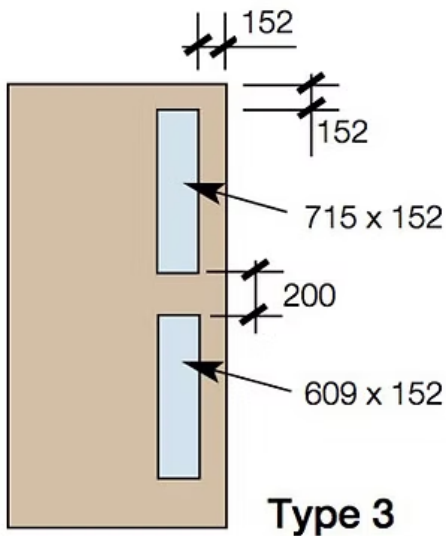

Rebated liner option:

VISION PANELS

We offer a wide range of **vision panel configurations** to suit your project's fire, security, and performance requirements.

Where **Approved Document M** compliance is required, our technical team will ensure your vision panel size, shape, and placement meet the necessary accessibility and building regulation standards.

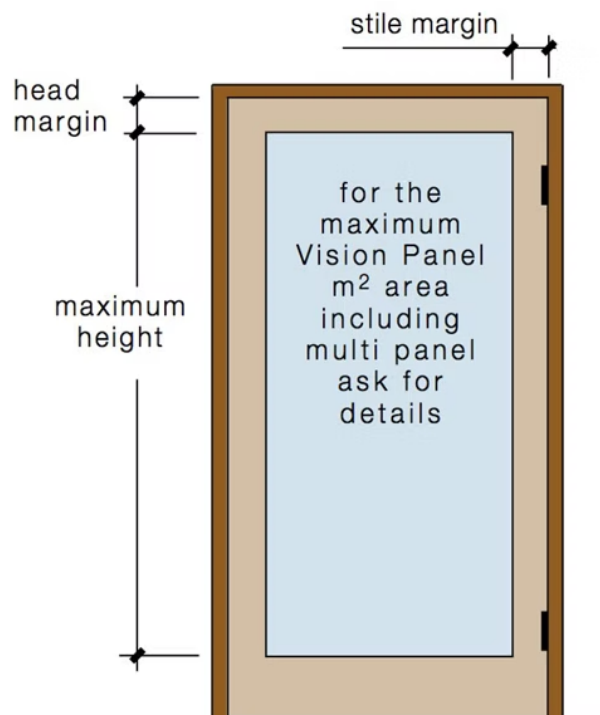

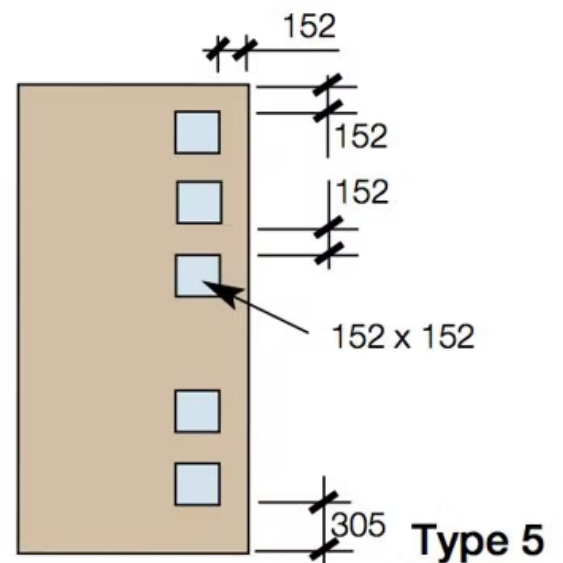

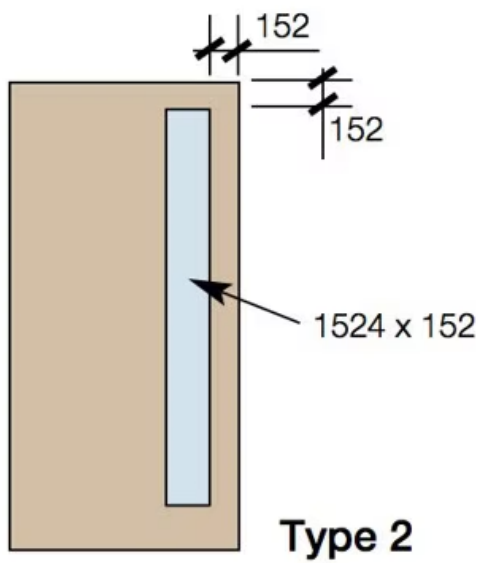

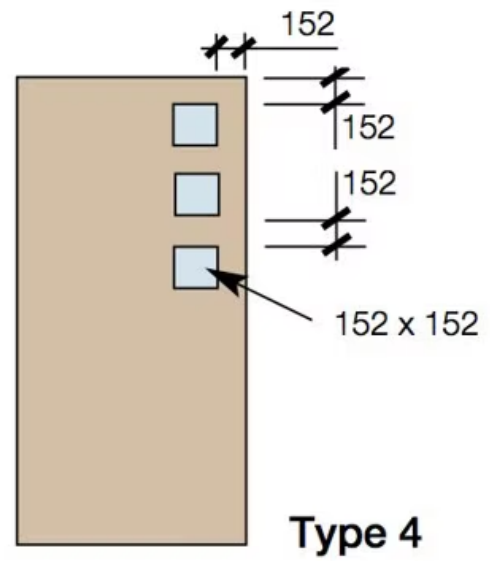

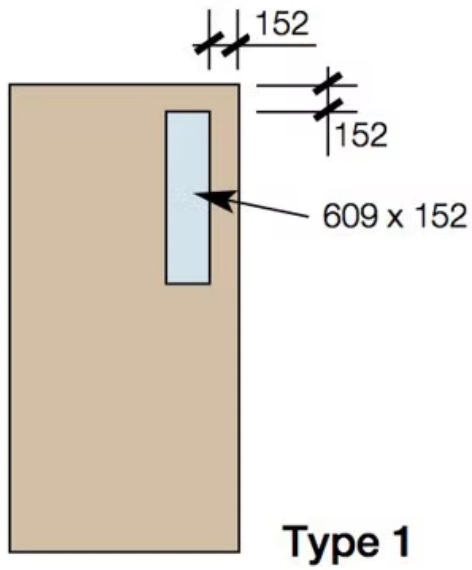

Type 3

Vision panels Type C.2 and Type C.3 meet the requirements of BS 8300, Building Regulations section M1/M2 diagram 9 for England & Wales, Technical Booklet H, section 7, diagram 7.1 for Northern Ireland, Technical Handbook - Non Domestic, section 4.1.7 & 4.2.5 for Scotland and Technical Guidance Document M, section 1.2, diagram 10 for Republic of Ireland.

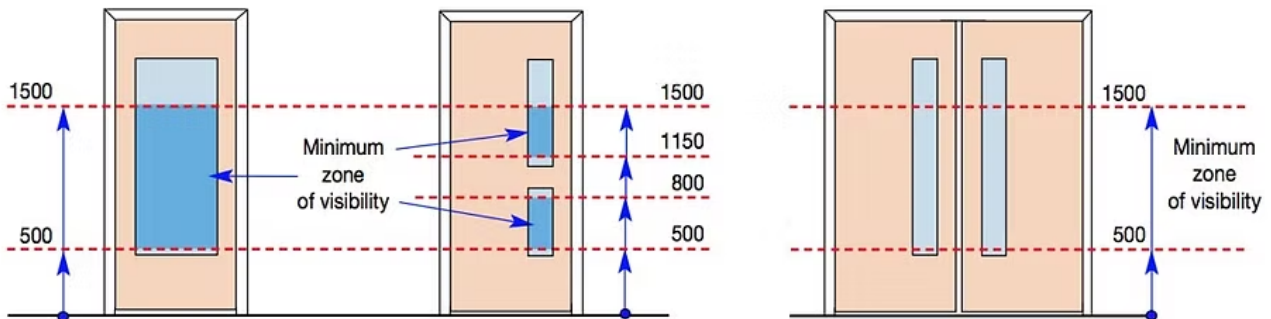

Type S

other shapes and sizes of vision panels, manufacture within the structural and performance limitations are available to order

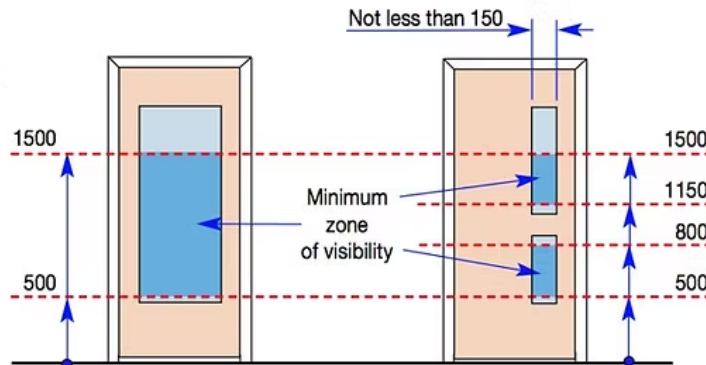

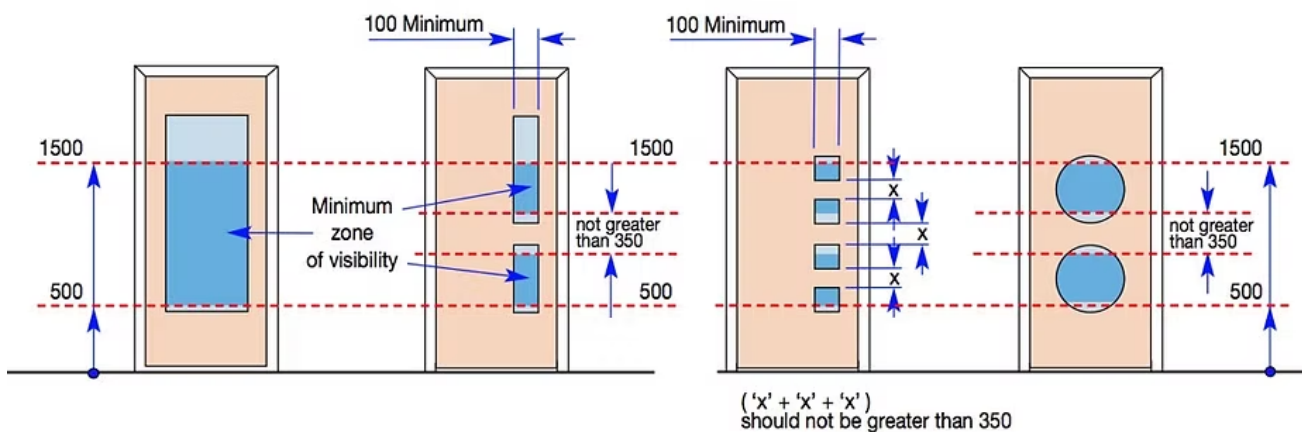

If your project has a requirement to comply with document M the size and shape of your vision panels is limited.

Northern Ireland
Technical Handbook H
Section 7 - Diagram 7.1

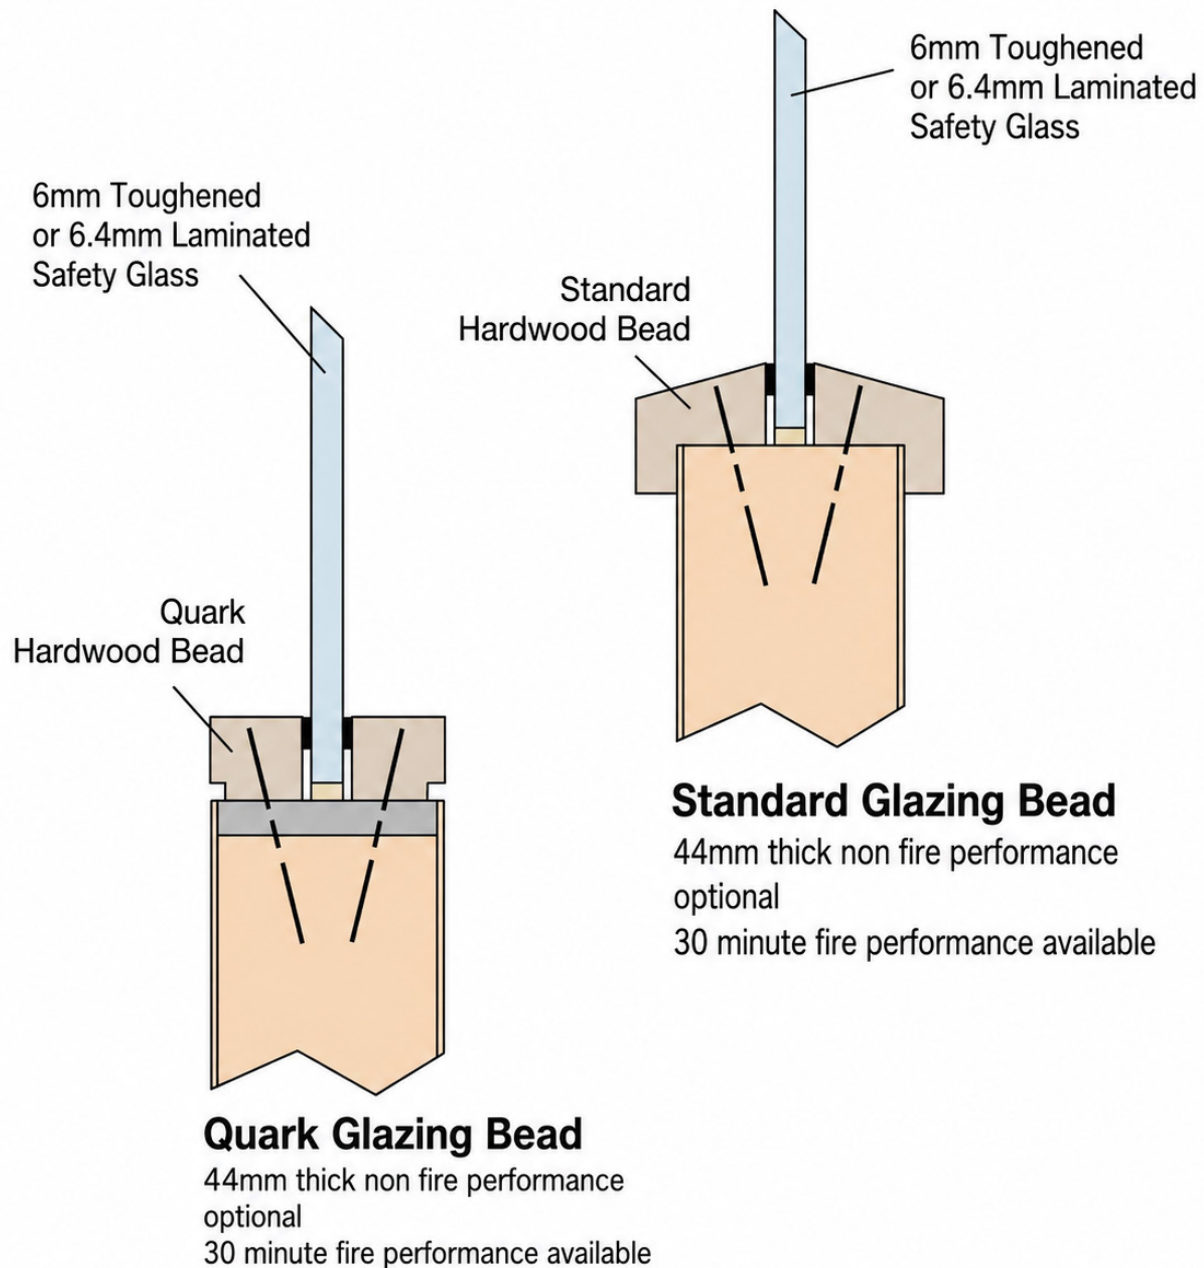

Republic of Ireland
Technical Guidance Document M - Section 1.2 - Diagram 10

GLAZING

We offer a wide range of **glazing options**, including **fire-rated, non-fire-rated, toughened, thermal and obscured glass**. Our technical team will help you select the right glazing solution to meet your project's performance, safety, and regulatory requirements.

Beading options

Typically, our glazing is held in place using one of two beading methods, the most popular of which is a protruding, 'bolected' or hockey stick bead. For those preferring a cleaner look to the door face, we offer a flush bead too.

COMPLETE DOORSET SOLUTIONS

DESIGNED FOR PERFORMANCE

- Every building has unique operational requirements.
- Whether supporting residential developments, healthcare facilities, hospitality environments or commercial buildings, doorsets must balance aesthetics with functionality, compliance and long-term performance.
- RBCDS works closely with clients throughout the design process to ensure doorsets are selected and specified correctly for each application.

Our Experienced Technical Team Assists With:

- Fire Compliance
- Acoustic Performance
- Accessibility Requirements
- Security Performance
- Durability Requirements
- Architectural Finishes
- Operational Performance

By considering the complete opening package from the earliest stages of a project, we help eliminate coordination issues and reduce programme risk.

Our objective is simple. To deliver doorsets that perform exactly as intended throughout the life of the building.

FIRE RATED DOORSETS

PROTECTING PEOPLE, PROPERTY AND ASSETS

- Fire safety remains one of the most critical responsibilities within modern construction.
- RBCDS provides tested and certified fire-rated doorset solutions designed to support compartmentation strategies and life safety requirements.
- Our doorsets are available across a wide range of fire ratings and applications, ensuring every project receives a compliant and fully coordinated solution.

Applications include:

- Healthcare
- Education
- Residential
- Student Accommodation
- Hospitality
- Commercial Offices
- Public Buildings
- Defence Facilities

Every doorset is specified with consideration for:

- Fire Performance
- Acoustic Requirements
- Accessibility
- Security
- Durability
- Aesthetics

By coordinating doorsets alongside ironmongery and access control systems, we help ensure compliance without compromising usability or appearance.

ARCHITECTURAL FINISHES & DESIGN OPTIONS

WHERE PERFORMANCE MEETS DESIGN

- Modern buildings require more than functionality.
- They require environments that create positive experiences for occupants, visitors and stakeholders.
- RBCDS provides access to a wide range of architectural finishes, veneers and design options, enabling clients to achieve their design objectives without compromising performance.

Options Include:

- Natural Oak
- Walnut
- Ash
- Cherry
- Beech
- Birch
- Paint Grade Finishes
- Decorative Laminates
- Specialist Veneers
- Feature Doorsets
- Architectural Glazing

Our technical team works closely with project stakeholders to coordinate finishes throughout the development and ensure consistency across every opening.

TECHNICAL EXPERTISE

MORE THAN A PRODUCT SUPPLIER

At RBCDS, we recognise that successful projects depend on technical expertise as much as product quality.

Our experienced team supports projects through:

- Specification Reviews
- Door Scheduling
- Ironmongery Scheduling
- Compliance Advice
- Technical Coordination
- Manufacturer Liaison
- Product Selection
- Value Engineering

By becoming involved early in the design process, we help identify opportunities, resolve technical challenges and reduce risk before construction begins.

This proactive approach enables projects to progress more efficiently and helps clients avoid costly issues later in the programme.

A COMPLETE OPENING PACKAGE

ONE COORDINATED SOLUTION

Traditionally, doorsets, ironmongery, access control and specialist hardware have often been procured separately.

This approach frequently creates coordination challenges and increases project risk.

RBCDS removes those challenges by providing a complete opening package through a single point of responsibility.

This Approach Delivers Significant Benefits:

- Improved Coordination
- Reduced Risk
- Simplified Procurement
- Compliance Advice
- Enhanced Compliance
- Improved Programme Management
- Greater Accountability

The result is a more efficient project and a better experience for everyone involved.

ARCHITECTURAL IRONMONGERY

THE DETAILS THAT DEFINE PERFORMANCE

Architectural ironmongery plays a critical role in the performance, safety and usability of every building.

RBCDS supplies a comprehensive range of architectural hardware solutions designed to meet the requirements of modern construction.

Our Offering Include:

- Lever Handles
- Pull Handles
- Locks & Latches
- Hinges
- Door Closers
- Panic Hardware
- Access Control Hardware
- Specialist Security Products
- Decorative Architectural Hardware

Working with leading manufacturers, we ensure every product is selected appropriately for its intended application.

DESIGN WITHOUT COMPROMISE

One of the UK's leading manufacturers of architectural hardware and design-led ironmongery solutions.

The extensive product range provides architects and designers with the flexibility to create distinctive environments while maintaining exceptional performance.

Products Include:

- Lever Handles
- Pull Handles
- Cabinet Hardware
- Architectural Accessories
- Locks
- Hinges
- Door Furniture
- Decorative Collections

The products feature extensively throughout residential, hospitality and commercial developments across the UK.

Through our partnership, clients benefit from access to a broad range of finishes, styles and technical solutions.

ENGINEERED FOR RELIABILITY

Established globally for quality, durability and innovation.

The products are specified extensively throughout commercial, residential and public sector environments where long-term performance is essential.

Key Product Categories Include:

- Lever Handles
- Window Hardware
- Door Furniture
- Security Hardware
- Access Solutions
- Specialist Architectural Hardware

A commitment to engineering excellence aligns closely with RBCDS's focus on quality, reliability and customer satisfaction.

GLOBAL LEADERS IN ACCESS SOLUTIONS

Recognised worldwide as a leader in access and security solutions.

The products support some of the most demanding environments across healthcare, education, commercial and public sector projects.

Solutions Include:

- Locks
- Electric Locking
- Security Hardware
- Panic Hardware
- Door Closers
- Access Control Components
- Integrated Security Systems

By combining high-quality access and security products with RBCDS's technical expertise and project management capabilities, clients benefit from fully coordinated solutions that deliver both performance and peace of mind.

SECURITY BUILT INTO EVERY OPENING

Effective security begins with effective key management.

RBCDS provides high-security cylinder and master key solutions designed to protect assets, buildings and people.

Our Solutions Include:

- Restricted Key Systems
- Patented Cylinders
- Master Key Systems
- Key Control Programmes
- High Security Locking Solutions
- Asset Protection Systems

By designing security into the opening package from the outset, we help clients achieve greater control, improved accountability and enhanced protection across their buildings.

Whether supporting a residential development, healthcare facility or major infrastructure project, our team delivers security solutions tailored to the specific needs of each project.

RB COMPLETE DOORSET SOLUTIONS

SUMMARY

Security is not simply about restricting access. It is about creating environments that provide the right people with access to the right areas at the right time while maintaining complete control and accountability.

INTELLIGENT KEY MANAGEMENT

RBCDS provides intelligent key management solutions through carefully designed master key systems, restricted key profiles and patented cylinder technologies to reduce risk and improve operational efficiency. Applications include Residential Developments, Healthcare Facilities, Education Campuses, Commercial Offices, Student Accommodation, Public Buildings, and Defence Facilities. Solutions are designed to scale from ten doors to thousands and integrate into wider opening packages.

DESIGNED FOR THE FUTURE

RBCDS delivers innovative access control solutions for modern developments, enabling remote management and secure occupant movement.

Applications include Residential Developments, Build to-Rent Schemes, Student Accommodation, Hotels, Commercial Offices, Healthcare Facilities, and Education Environments.

Key Features Include:

- Wireless Locking
- Cloud-Based Management
- Mobile Credentials
- Electronic Handles
- Locker Solutions
- Visitor Management
- Remote Administration

SMART BUILDINGS REQUIRE SMART ACCESS

RBCDS integrates access control systems into wider opening packages to provide seamless, coordinated solutions. Benefits include Improved Security, Reduced Key Management, Enhanced User Experience, Future-Proof Technology, Scalable Infrastructure, and Flexible Administration.

AUTOMATIC DOORS & DOOR CONTROLS

ACCESSIBILITY WITHOUT BARRIERS

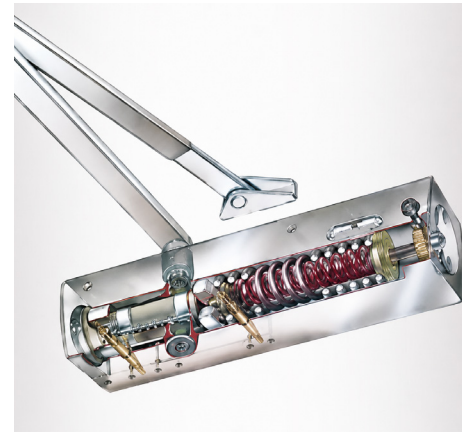

RBCDS provides complete automatic door and door control solutions designed to improve accessibility, enhance user experience and support compliance. Solutions cover Healthcare Facilities, Educational Environments, Commercial Buildings, Hotels, Residential Developments, and Public Buildings. Applications include Automatic Sliding Doors, Automatic Swing Doors, Door Operators, Entrance Systems, Revolving Doors, Automatic Controls, Activation Systems, and Safety Sensors.

COMPLETE DOOR CONTROL SOLUTIONS

RBCDS works with leading manufacturers to provide reliable and compliant solutions.

- Access and entrance solutions including automatic doors, revolving doors and accessibility systems.
- Door control technologies, automatic door operators and accessibility solutions.
- Door closer solutions, floor springs and specialist control systems.

WASHROOM SYSTEMS

HYGIENE BY DESIGN

RBCDS provides complete washroom systems for commercial, healthcare, hospitality and public sector environments, working with strategic partners. Solutions include IPS Systems, Vanity Units, Cubicle Systems, Mirror Units, Soap Dispensers, Hand Dryers, Paper Towel Systems, and Waste Management Solutions. Team support includes specification, procurement and installation.

DESIGNED FOR THE END USER (WASHROOM ENVIRONMENTS)

RBCDS focuses washroom systems on Long-Term Reliability, Ease of Maintenance, Modern Design, Enhanced Hygiene, and Operational Efficiency, coordinating with wider building packages to simplify procurement and improve project delivery.

SIGNAGE & WAYFINDING

HELPING PEOPLE MOVE WITH CONFIDENCE

RBCDS, working with Photoscreen and specialist partners, provides signage and wayfinding solutions across the UK for Healthcare, Education, Residential, Hospitality, Commercial, and Public Buildings. Solutions include Wayfinding Systems, Room Identification, Door Signage, Manifestation Graphics, Fire Safety Signage, External Signage, and Branding Solutions.

POSTAL, PARCEL & BIKE RACKS

MANAGEMENT SOLUTIONS

RBCDS provides a complete Design, Supply & Installation service for postal and parcel management through partnership with YourBox. Solutions include Apartment Mailboxes, Parcel Lockers, Freestanding Mailbox Banks, Recessed Mailbox Systems, Through-Wall Letterboxes, Staff Locker Systems, Bike Racks and Bespoke Storage Solutions. Designed for Residential Developments, Build-to-Rent Schemes, Student Accommodation, Commercial Offices, Hotels, and Mixed-Use Developments.

POSTAL & PARCEL MANAGEMENT SOLUTIONS

DESIGNED FOR MODERN DEVELOPMENTS

The demands placed on modern buildings continue to evolve.

Residents expect secure parcel delivery solutions.

Building operators require systems that reduce administration and improve operational efficiency.

Developers increasingly recognise postal and parcel management as a critical component of modern building design.

RBCDS provides fully integrated solutions designed to support these changing requirements.

OUR SERVICES INCLUDE:

- Design Consultation
- Product Selection
- Layout Coordination
- Technical Support
- Supply
- Installation
- Project Management

Working alongside YourBox, we provide solutions that combine functionality, security and aesthetics while integrating seamlessly into the wider building environment.

The result is a complete service delivered through a single point of responsibility.

FEATURED PROJECT

LIVERPOOL FC TRAINING CENTRE

DELIVERING FOR WORLD-CLASS FACILITIES

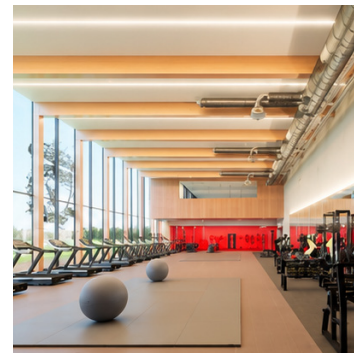

The Liverpool FC Training Centre represents one of the most recognisable sporting facilities in the United Kingdom.

Designed to support elite athletes, coaching staff and operational teams, the facility required high quality building solutions capable of delivering exceptional performance and durability.

PROJECT HIGHLIGHTS

- Premium Architectural Finishes
- High Performance Doorsets
- Specialist Ironmongery
- Modern Internal Environments
- Coordinated Supply Solutions

The project demonstrates RBCDS's ability to support prestigious developments where quality and attention to detail are essential.

FEATURED PROJECT

MUNICIPAL HOTEL LIVERPOOL HERITAGE. LUXURY. PERFORMANCE.

The Municipal Hotel represents one of Liverpool's most iconic hospitality developments.

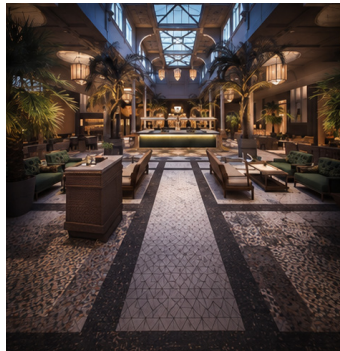

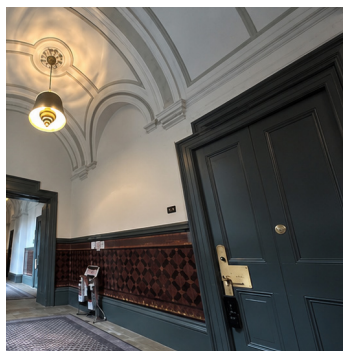

Combining heritage architecture with modern luxury, the project required solutions capable of respecting the character of the building while delivering contemporary performance standards.

RBCDS supported the project through the provision of specialist building solutions that contributed to the overall quality and functionality of the finished development.

PROJECT HIGHLIGHTS

- Luxury Hospitality Environment
- Architectural Ironmongery
- Premium Doorsets
- Washroom Systems
- Signage & Wayfinding
- High-End Finishes

This project demonstrates RBCDS's ability to support prestigious hospitality developments where aesthetics and performance must work together.

FEATURED PROJECT

HINKLEY POINT

SUPPORTING CRITICAL INFRASTRUCTURE

Hinkley Point represents one of the largest infrastructure programmes undertaken within the United Kingdom.

Developments of this scale require dependable supply chains, coordinated project delivery and products capable of supporting demanding operational requirements.

RBCDS contributed through the supply of specialist building solutions supporting accommodation and operational facilities throughout the development.

PROJECT HIGHLIGHTS

- Large Scale Infrastructure
- Accommodation Facilities
- High Volume Supply
- Programme Reliability
- Coordinated Delivery
- National Project Support

The project demonstrates RBCDS's ability to perform within some of the most demanding construction environments in the country.

FEATURED PROJECT

MOD LYNEHAM

SUPPORTING EDUCATION AND DEFENCE

MOD Lyneham represents a significant education and training facility supporting defence infrastructure within the United Kingdom.

Projects of this nature require dependable solutions capable of delivering security, durability and long term performance.

RBCDS provided coordinated building solutions supporting the operational requirements of this important facility.

PROJECT HIGHLIGHTS

- Education Facilities
- Training Environments
- Accommodation Buildings
- Secure Openings
- Durable Building Solutions
- Long-Term Reliability

The project demonstrates our capability to support complex developments operating within highly demanding environments.

FEATURED PROJECT

NEWFOUNDLAND CANARY WHARF

PREMIUM RESIDENTIAL LIVING

Newfoundland stands among the most recognisable residential towers within London's Canary Wharf district.

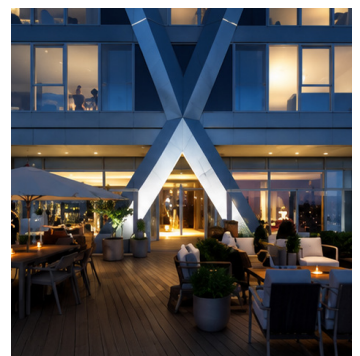

The development combines innovative architecture with premium residential accommodation and world-class amenities.

RBCDS supported the project through the provision of specialist building solutions contributing to the quality, security and functionality of the finished development.

PROJECT HIGHLIGHTS

- Luxury Residential Environment
- Apartment Entrance Doorsets
- Access Control Solutions
- Key Management Systems
- Premium Internal Finishes
- Modern Resident Experience

The project demonstrates our capability to support landmark residential developments where quality and user experience are paramount.

ACCREDITATIONS & ASSURANCE

TRUSTED. VERIFIED. ACCOUNTABLE.

Quality, compliance and professionalism remain central to everything we do.

RBCDS maintains recognised industry accreditations that demonstrate our commitment to delivering safe, compliant and professional services.

OUR ACCREDITATIONS INCLUDE

- ISO 9001
- Quality Management Systems
- ISO 14001
- Environmental Management Systems
- BM Trada
- Third Party Certification
- Constructionline Gold
- Supply Chain Accreditation
- CHAS
- Health & Safety Accreditation
- SafeContractor
- Health & Safety Compliance
- Responsible Sourcing
- GAI Corporate Membership
- Professional Industry Recognition

These accreditations provide clients with confidence that RBCDS operates to recognised industry standards and remains committed to continuous improvement.
